Po Leung Kuk Mrs. Chao King Lin Kindergarten

Kindergarten taster and transition sessions

The school will invite parents of our new students to attend the Parent' s Day to help student transition into a new school environment. Parents can communicate with our teachers and learn more about the class schedule and daily activities at school. We encourage parents to participate in school activities, such as Parent' s Day, parent' s seminar, workshop, parent-child activity, lesson observation sessions and parent voluntary activities to become more involved with their child' s school performance.

“The kindergarten taster and transition sessions” will allow our new students and their parents to develop a better understanding of the school environment. Students can be more prepared and develop a sense of belonging. We are determined to provide a warm, welcoming learning environment for our students to increase their interest to attend school and successfully adapt to the wonderful school life.

Parent-Child Activities

Sports Day

CNY Activity

School Open Day

Mother's Day Activity

Father's Day Activity

Storytelling Activity

We value the importance of Home-School Collaboration. Through organizing various parent-child activities, we hope to facilitate better communication between parents and the school. It is important for us to promote positive values in our students.
