Premium English Immersion Programme

The School is devoted to establish a happy learning environment to promote quality English education at the kindergarten level. Other than having experienced English teachers to provide excellent English course for students in different classes and groups, we also provide Communicative English Courses in the afternoon. Students are allowed to practise and improve their English skills through multiple interactive activities.

We also invite early childhood education expert to provide professional guidances for our English courses. The textbooks we used are Get Set, Go! Phonics—OXFORD University Press (The Winner of 2018 British Council ELTons Awards) and Shared Reading Programme—Longman HK Education. Students can build a solid English foundation through playful activities and in real-life learning themes.

To strengthen students' confidence in using English, we also provide after-school English Enrichment Program (free of charge) for students of different age-groups. We want to cultivate their intrinsic motivation to learn English.
