3-year (half-day class: K1, K2 & K3)
(whole-day class: K1, K2 & K3)

School Vision

Adhere to the mission of "Love, Respect, Diligence and Integrity" of Po Leung Kuk. Be children-oriented, to explore children's potential and cultivate their self-learning, thinking, exploration, self-confidence and innovative spirit, so as to lay a good solid foundation for lifelong learning.

Teaching Language

(Chinese, English, and Putonghua)

We attach great importance in enhancing students' biliterate and trilingual abilities and correct Cantonese pronunciation. Both our Putonghua and English teachers are native speakers. We adopted the real-life theme teaching model, focused on applying languages in practices, so as to enhance the language interaction and communication, and strengthen children's bilingual ability and interest in learning.

Curriculum and School Features

The curriculum design is child-oriented. It contains comprehensive and well-balanced interdisciplinary courses aligns with the *Kindergarten Education Curriculum Guide* issued by the Education Bureau. It covers the whole-person development of children, and aims to develop children's thinking and problem-solving skills, inspire their proactive learning attitude and explore their potential.

We focus on real-life theme teaching, aimed to break the boundaries of learning by designing various activities so that children can link what they learn at school in life. We also create a favorable learning environment for children. By adopting the zone setting, this can encourage children to learn independently. We enhance the interest and effectiveness in learning with real-life, inspiring, diversified and interesting games.

We also pay much attention to the development of moral values and positive emotions among students. We want to promote positive education in order to develop children's personal strengths, with the focus on building positive emotions and feeling of happiness, so as to help children, parents and our staff to for a fruitful future.
