

保良局曹金霖夫人幼稚園

Po Leung Kuk Mrs. Chao King Lin Kindergarten

The school caters to the learning needs of non-Chinese speaking(NCS)

The school is committed to encouraging and supporting the integration of NCS students by facilitating their early mastery of then Chinese language. The Chinese program was born of the firm belief to buttress learning through interest-based activities. By designing teaching aids that are interactive and thought provoking, the school gives students the right amount of stimulations to enhance their learning. We merge the Naturalistic Instructional Approach with experiential learning in the hopes that students can generalize their newly acquired abilities to their daily lives.

Lessons for NCS Students

Students can consolidate vocabulary and sentence structures by attending small group activities.

Learning videos and worksheets

At the end of each thematic unit, the school will distribute videos and worksheets to students. Students can revise their lessons at home at their convenience.
