Experimental learning activities outside the classroom
2025-2026 school year

Class	K3	
Activity name	Save the Earth	
Activity Objectives	Through engaging and interactive activities, children are guided to recognize various recyclable items in daily life. They learn that these resources are not waste, but valuable materials that can be recycled and reused. At the same time, activity encourages children to start with small daily actions, develop the habit of sorting and recycling.	
Activity content	Through visits to Green@Kwai Tsing and participation in environmental workshops, young children learn about different types of recyclable items and how to reuse waste. Furthermore, the activities aim to enhance children's environmental awareness and promote their love for the Earth, as well as teach them about waste reduction at its source.	
Activity Results	The activity can: 1. Learn about different categories of recyclable items 2. Strengthen children's environmental awareness 3. Other (Please specify:)	☒ Strongly agree ☐ Agree ☐ Disagree ☒ Strongly agree ☐ Agree ☐ Disagree
Suggestions for improving the activity	Children can complete the visit worksheet after the activity, that allows them to review the different types of recyclable materials.
