K2-交通安全

Po Leung Kuk Fiona Cheung Sum Yu Kindergarten
Kindergarten Activity Report
2023-2024 school year

Class: K2	Date: January 18, 2024
Activity name: K 2— Traffic Safety	
Activity goal: By visiting the traffic safety park and participating in the activities, children can experience in a simulated road environment and learn and develop awareness about road safety.	
Activity results and suggestions:	
(1) Activity content	
<p>The teacher leads the children to visit the Traffic Safety Park. The activity is divided into two parts. In the first part, the staff will personally explain the important matters of traffic safety. Through a question-and-answer method, the children will understand that pedestrians also need to be safe on the road. Another part of the activity is for teachers to lead children to ride bicycles and act as drivers.</p>	
(2) Activity results	
<p>When children visit the traffic safety park, they can see different road facilities and signs. They can also experience first-hand the rules they need to pay attention to when riding bicycles and understand the importance of road safety. During the activity, staff will explain the precautions for traffic safety and the benefits of complying with them, and children can gain a deeper understanding of traffic safety through a question-and-answer format.</p>	
<p>In addition, the teacher will lead the children to pretend to be pedestrians and walk through the traffic safety park. The children can recognize different road signs and facilities, such as traffic lights, zebra crossings, pedestrian overpasses, etc., and learn the precautions for crossing the road. Finally, children can play the role of a driver on a bicycle and judge by themselves what color lights are required to drive, which road to take, etc. From then on, children can understand the rules of road safety and the benefits of following them, so that they can become safe and responsible drivers when they grow up. who.</p>	

In this activity, children can effectively improve their understanding of traffic safety, such as judging red lights and green lights. Children can also develop their awareness of traffic safety, and the overall activity can achieve their teaching objectives.

suggestion:

The overall activity is good, but it is recommended that children be allowed to operate bicycles in schools to consolidate their knowledge and skills and cultivate their habits of paying attention to their surroundings and obeying road safety rules in other places.
