K3-愛護地球

CARE FOR THE EARTH

Po Leung Kuk Fiona Cheung Sum Yu Kindergarten  
Kindergarten Activity Report  
2023-2024 school year

Class: K3A

Date : 2024-5-8

Activity name: Care for the Earth

Activity goals:

- Be able to recognize different recycling categories
- Be able to recognize different recycling methods
- Be able to cultivate the habit of recycling
- Can enhance environmental awareness

**Activity content and results:**

Children understand recyclable materials in it, such as: paper, plastics, aluminum cans, small electrical appliances, etc. During the process, children learn about various recycling items one by one and play related games and visiting. In addition, children also learned about waste utilization and recycling, and they also experienced how to recycle waste. Children with a toilet paper used the provided toilet paper tube to create a gift box.

Throughout the activity, staff introduced different recycling categories and recycling methods to children in detail, which can effectively let children understand various environmental protection knowledge. At the same time, a lot of interactions and games were added during the activities to make it easier for children to memorize the content. In addition, the staff use examples about recycling that children can come into contact with in daily life and are close to their life experiences, so that children can be more involved in activities.

At the same time, the gift box creation activities carried out by children can directly experience how to reuse waste. through various activities, they can cultivate the habit of recycling and enhance environmental awareness.

**suggestion:**

The overall activity was good, the staff gave clear and detailed explanations, and the activities were suitable for children's level. However, the time for the gift box creation activity was too short, and most of the children failed to complete it. The teacher needs to continue with the children after returning to school. It is recommended that this environment can add 5 more minutes.

Below are photos of children's activities:
