Curriculum Details	
Curriculum type	Local

Curriculum planning
<p>The school develops an integrated spiral curriculum according to the Education Bureau's Curriculum Guidelines. Our kindergarten permeate the 6P(Play, Positive Thinking, Proactiveness, Problem Solving, Pleasure and Potential) teaching elements in our courses and activities to offer students balanced learning opportunities in five developmental objectives, namely "Moral Development", "Cognitive and Language Development", "Physical Development", "Affective and Social Development", and "Aesthetic Development", in view to nurture children to attain all-round development in the domains of ethics, intellect, physique, social skills and aesthetics. We respect the developmental characteristics and needs of children and let them have a happy, safe and caring kindergarten life.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>
Learning / Teaching approach and activities
<p>We provide Play-Based learning to children to help them grow in an exploratory learning environment. Besides utilizing Thematic and Small Group Learning; the Child-Centered Project Approach is also used. We also apply Mother Tongue Speech Sound Development, Language Development, Whole Language Learning, Story-Focused Approach, as well as Positive Education. We also introduce these to enhance children's abilities in listening, speaking, reading and writing. We provide a relaxed and child-friendly atmosphere to encourage children to learn through games and songs, which strengthen their trilingual skills.</p>
Assessment of children's learning experiences
"Children's Learning Portfolios" establishes a continuous observation record and summative report of the child's development.

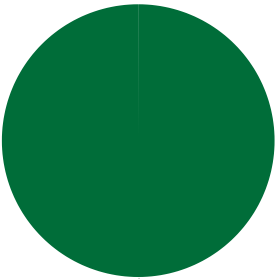

School Characteristics	
School vision and mission	Our school motto is "Love, Respect, Diligence and Integrity". We provide a balanced emphasis on the five major areas of education. We adapt a child-centered approach, helping them to acquire knowledge and skills, develop creativity and independent thinking.
Support to students	<p>"Pre-Class preparation" and adaptation period are implemented to help early admitted students. Special care and counselling are provided for slow learners.</p> <p>Primary school preparation includes visiting primary school and organizing P.1 activities.</p> <p>We also promote healthy life and cooperate with community organizations, arrange visits and activities.</p>
